

Deepinfo

Secure your organization with **Deepinfo Attack Surface Platform.**

The ultimate solution for digital asset discovery, continuous monitoring, issue and vulnerability detection, quick remediation and 360-degree brand monitoring.

Deepinfo Attack Surface Platform

All-in-one web security monitoring solution to empower your organization's cyber security.

Smart Asset Discovery

Discovers all your digital assets automatically: domain names, subdomains, websites and more.

Continuous Monitoring

Monitors all your assets 24/7. Checks Whois, DNS, SSL, open ports, technologies, web data, and more.

Issue & Vuln. Detection

Detects and prioritizes issues and vulnerabilities. Offers quick remediation to prevent attacks.

360° Brand Monitoring

Protects your brand with fraudulent domain detection, email leakage, dark web and social media monitoring.

3rd Party Risk Scoring

Identifies, monitors and scores your vendors automatically, making third-party risk management easy.
